

# South Carolina Historical Society Museum

## Private Event Information

Building Capacity: 70

The Fireproof Building, completed in 1827 and designed by Robert Mills, is recognized as the oldest fireproof structure in the United States. Designated a National Historic Landmark, it was built to safeguard South Carolina's most valuable public records and is currently home to the South Carolina Historical Society and Museum.

The first floor includes a brick courtyard enclosed by a wrought-iron fence, the museum lobby, and a staging kitchen. The second floor includes the museum galleries and a portico overlooking Washington Square and the museum galleries. The third floor includes a conference room with a flat screen monitor and access to the first-floor staging kitchen. All three floors have restroom access.
